DDJ High Yield Fund announces redemption deadline

TORONTO (July 3, 2007) – CI Investments Inc. ("CI"), the manager of DDJ High Yield Fund (the "Fund"), announced today that the deadline for redemption requests is July 31, 2007.

Unitholders of record as of July 31, 2007 may redeem or sell their units to the Fund at net asset value, calculated as of August 15, 2007, by giving notice through Computershare Investor Services Inc. by 4 p.m. Eastern time on July 31. Payment of the redemption will be made on August 30, 2007.

The August redemption right is a result of a decision by unitholders in October 2005 to extend the term of the Fund by 10 years to August 15, 2017, to allow it to take full advantage of a new mandate. The new mandate allows the Fund to invest in high yield debt securities on a global basis, rather than to invest primarily in high yield debt of Canadian issuers. The redemption right accommodates those unitholders who do not wish to participate in the Fund beyond its originally scheduled termination date of August 15, 2007.

The Fund's investment objective is to provide investors with a high level of current income distributed quarterly over the life of the Fund while preserving capital. The Fund also seeks capital appreciation through investing in securities with potential for appreciation.

Under the guidance of investment advisor DDJ Capital Management, LLC, the Fund has achieved an excellent performance record within the high-yield category. For the periods ending May 31, 2007, the Fund has achieved an average annual return, based on net asset value and including distributions, of -1.0% over one year, 5.7% over three years, 9.2% over five years and 6.0% since inception (August 1997).

DDJ Capital Management, LLC of Waltham, Massachusetts, is a registered investment advisor specializing in distressed and high-yield securities and special situation investing. It manages US\$2.0 billion in high-yield assets and has total assets under management of \$3.1 billion.

CI Investments Inc. is a corporation controlled by CI Financial Income Fund (TSX: CIX.UN), an independent, Canadian-owned wealth management firm with approximately \$98.7 billion in fee-earning assets as of June 30, 2007. CI offers a broad range of investment products and services, including an industry-leading selection of investment funds, and is on the Web at www.ci.com.

Placements CI annonce le lancement des Billets à rendement amélioré CI, série 1, de la CIBC, qui offrent une meilleure exposition au Fonds de croissance et de revenu Signature

TORONTO (le 4 juillet 2007) – CI Investments Inc. a annoncé aujourd'hui le lancement des Billets à rendement amélioré CI, série 1, de la CIBC, un nouveau produit d'investissement qui offre aux investisseurs canadiens le potentiel d'une exposition accrue au Fonds de croissance et de revenu Signature.

La caractéristique de rendement amélioré des billets procure aux investisseurs un taux de participation de 150 % de tout rendement positif du Fonds à l'échéance du billet, mais limite à seulement 100 % le taux de participation de tout rendement négatif (après la déduction des frais et sur la base de 95,00 dollars par billet). Cette caractéristique permet aux investisseurs de profiter des avantages de l'effet de levier sans les inconvénients baissiers de celui-ci. De plus, toutes les distributions assurées par le Fonds sont nominalement réinvesties dans la structure du billet, offrant ainsi le potentiel d'une croissance additionnelle à imposition reportée.

Il s'agit de billets avec une durée de huit ans jusqu'à l'échéance dont le capital n'est pas protégé.

Le portefeuille du Fonds est géré par Signature Advisors, sous la direction d'Eric Bushell et de James Dutkiewicz. M. Bushell, directeur des placements de Signature Advisors, compte 14 ans d'expérience dans l'industrie des placements. M. Dutkiewicz a 15 ans d'expérience dans l'analyse et la négociation des obligations.

CIBC CI M.A.X. Deposit Notes™, Series 9, ROC (Return of Capital), maximize returns with tax-efficient monthly distributions and leveraged growth potential

TORONTO (July 16, 2007) – CI Investments Inc. today announced the launch of CIBC CI M.A.X. Deposit Notes™, Series 9, ROC (Return of Capital), which offer investors exposure to the global diversification of CI Global High Dividend Advantage Fund.

The portfolio of CI Global High Dividend Advantage Fund is managed by Epoch Investment Partners, Inc. of New York, led by Chief Investment Officer William Priest, a 35-year veteran of Wall Street. The fund invests in a well-diversified mix of global dividend-paying companies that enhance shareholder yield through cash dividends, stock buybacks and debt reduction.

The Notes' dynamic allocation strategy provides the potential for up to 200% exposure to CI Global High Dividend Advantage Fund and offers potential distributions as tax-efficient returns of capital of up to 8.33% per annum. Initial exposure to the fund will be 125% and indicative monthly distributions are 5.20% per annum, equal to 75% of the ordinary distributions payable on the fund. All other distributions will be notionally reinvested in the Note. The Notes represent an appealing alternative to domestic fixed-income investments, combining the potential for enhanced returns through exposure to a fund of well-diversified global securities with higher current cash flow relative to fixed-income distributions that are immediately taxable. Investors are encouraged to consult their own tax advisors with respect to the tax consequences of an investment in the Notes.

The Notes' "declining bond floor" methodology allows for potentially greater exposure to the fund as the monthly return of capital distributions should increase the "distance" between the bond floor and the NAV of the Note relative to a note using a traditional bond floor methodology. This feature offers the possibility of enhancing the potential Final Variable Payment at maturity, as well as potential distributions throughout the life of the Note.

CIBC CI M.A.X. Deposit Notes™, Series 9, ROC (Return of Capital) are 100% eligible for registered plans and are available through most financial advisors until August 24, 2007. The issue price is \$100 per deposit note, with a minimum investment of \$5,000. The complete terms of the offering are set out in the information statement dated May 31, 2007, which can be obtained by investors from their advisors. Further information about the deposit notes can also be found at www.ci.com.

Les Billets de dépôt M.A.X.^{MC} - CIBC CI, liés au R.D.C., série 9 maximisent les rendements avec des distributions mensuelles fiscalement avantageuses et la possibilité de recevoir un rendement amélioré

TORONTO (Le 16 juillet 2007) – CI Investments Inc. a annoncé aujourd'hui le lancement des Billets de dépôt M.A.X.^{MC} - CIBC CI, liés au R.D.C. (Rendement du capital), série 9, qui offrent aux investisseurs une exposition à la diversification mondiale du Fonds mondial avantage dividendes élevés CI.

Le portefeuille du Fonds mondial avantage dividendes élevés CI est géré par Epoch Investment Partners, Inc. de New York, qui est dirigé par le directeur des placements William Priest, un vétéran de Wall Street qui possède 35 années d'expérience. Le Fonds investit dans une composition bien diversifiée de sociétés mondiales versant des dividendes qui améliore le rendement des porteurs de parts par le biais de dividendes en argent, de rachats d'actions et de réduction de la dette.

La stratégie de répartition dynamique des billets procure la possibilité d'une exposition au Fonds mondial avantage dividendes élevés CI pouvant atteindre 200 % et offre des distributions potentielles en terme de rendement du capital fiscalement avantageux pouvant atteindre 8,33 % par année. L'exposition initiale au Fonds sera de 125 % et les distributions mensuelles indicatives sont de 5,20 % par année, égales à 75 % des distributions ordinaires versées par le Fonds. Toutes les autres distributions seront réinvesties de façon théorique dans les billets. Les billets représentent une alternative attrayante aux placements domestiques à revenu fixe, combinant le potentiel d'obtenir des rendements améliorés par le biais d'une exposition à un fonds de titres mondiaux bien diversifiés avec des flux de trésorerie réels supérieurs aux distributions effectuées par les titres à revenu fixe qui sont immédiatement imposables. Les investisseurs sont encouragés à consulter leurs conseillers fiscaux en regard des conséquences fiscales d'un placement dans les Billets.

La méthodologie du « plancher obligataire descendant » des billets permet une exposition plus élevée au Fonds, car le rendement mensuel des distributions du capital devrait augmenter la « distance » entre le plancher obligataire et la VL des billets comparativement aux billets qui utilisent une méthodologie traditionnelle de plancher obligataire. Cette caractéristique offre la possibilité d'améliorer le dernier versement potentiel variable à l'échéance ainsi que les distributions tout au long de la durée de vie du billet.

Les Billets de dépôt M.A.X.^{MC} - CIBC CI, liés au R.D.C.
